Frequently Asked Questions (FAQ) - PromodeAgroFarms

About Our Products

▼ What types of products do you offer?

We offer a variety of fresh, organically grown produce including seasonal vegetables, fruits, and herbs. All our products are cultivated using sustainable farming practices.

▼ How fresh are your products?

Our products are harvested daily and delivered to customers within 24-48 hours of picking, ensuring maximum freshness and nutritional value.

▼ Are your products organic?

Yes, we follow organic farming practices. We do not use synthetic pesticides or chemical fertilizers in our cultivation process.

Farming Process

▼ What farming methods do you use?

We implement sustainable farming practices including:

- Crop rotation to maintain soil health
- Natural pest control methods
- Drip irrigation for water conservation
- Organic composting
- Natural fertilizers

▼ How do you ensure soil fertility?

We maintain soil health through:

- Regular soil testing
- Use of organic compost
- Cover cropping
- Natural fertilization methods

Quality Control

▼ What quality checks do you perform?

Our quality control process includes:

- Regular soil and water testing
- Crop health monitoring
- Pre-harvest quality checks
- Post-harvest handling protocols
- Storage and packaging standards

▼ How do you ensure food safety?

We maintain strict food safety protocols including:

- Regular sanitation of handling areas
- Employee hygiene training
- Clean storage facilities
- Safe packaging practices

Ordering and Delivery

▼ How can I place an order?

Orders can be placed through:

- Our website
